

IDC5 software update

BIKE 29.0.0

TEXA

IDC5 BIKE software update 29.0.0

TEXA is synonymous with Technology, Innovation and Simplicity, all features that make its software and its tools the ideal solution for vehicle repairers.

The **BIKE update 29** is all this, a collection of diagnostic developments and technical information resulting from the work of a team of experts that day by day makes this software unique worldwide, other than complete, constantly updated and with a coverage of **79 makes** and over **2500 models**, **1900 wiring diagrams** and **3200 considering the technical sheets, the technical bulletins and the nominal value sheets**.

Furthermore, IDC5 BIKE is the official software (OEM) of manufacturers SWM, FANTIC MOTOR and MOTO MORINI, which join the large group of

motorcycle manufacturers that have chosen TEXA as their partner in the diagnostic supply to their authorised centres.

As for this update, we wish to highlight the important work carried out to further extend the coverage of makes such as **Benelli, BMW, DUCATI, KEEWAY, MV AGUSTA**; to guarantee the diagnosis of vehicles produced based on the Euro 4 standard; the addition of the **new makes FANTIC MOTOR, SHINERAY, SWM, GEM** and the conversion of over 90% of the software wiring diagrams into an interactive format.

Below only a small part of all the developments introduced with update BIKE 29 is listed, divided by category.

BIKE category

APRILIA

The new models "Caponord 1200 Rally", "RSV4 RR-RF" and "Tuono V4" (1100 engine) have been added along with the related complete diagnosis.

The complete diagnosis for the model "Caponord 1200" has been added.

BENELLI*

The new Euro 4 vehicles "Leoncino 500" and "TRK 502" have been added along with the related complete diagnosis.

The new Euro 4 vehicles "BN302R" and "TNT 125" have been added along with the related complete diagnosis and the ECU update function. For the diagnosis of the vehicle "TNT 125", the new AP52/OBD cable is required – see chapter "New diagnostic cables". The ECU update function has been added for the Euro 4 models "BN 251", "BN302", "BN600GT" and "BN600i".

BMW

The complete diagnosis, Global Scan and the service

and maintenance (service reset) function has been added for the Euro 4 models "C 650 GT (K19)", "R 1200 GS (K50 - Liquid Cooled)" and "R 1200 GS Adventure (K51 - Liquid Cooled)". All the BMW vehicles produced based on the Euro 4 standard are equipped with OBD socket and therefore the 3151/AP05 cable is required to carry out the diagnosis.

The new vehicle "C Evolution (K17)" has been added along with the related electric drive system diagnosis. The special function CIP to adjust the windscreen has been added for the Euro 3 vehicle "C 650 GT (K19)". The special function CIP to unlock the limiter after the run-in has been added for the vehicles "S 1000 R (K47)", "S 1000 RR (K46)" and "S 1000 XR (K49)". The database has been improved.

DUCATI

The new Euro 4 models "Diavel EU4 (NO USA / CHINA)", "Monster 821 EU4" (Model year 2017) and "Scrambler 800 EU4 (NO USA / CHINA)" have been added along with the related complete diagnosis, Global Scan, special functions and service and

maintenance (service reset) function.

The complete diagnosis, Global Scan, special functions and service and maintenance (service reset) function have been added for the models "Multistrada 1200", "Multistrada 1200 D-Air", "Multistrada 1200 Pikes Peak" and "Multistrada 1200 S/T" produced starting from September 2016 (Euro 4 vehicles).

The diagnosis has been improved on latest-generation vehicles.

FANTIC MOTOR*

New make. The vehicles "125 Enduro" and "125 Motard" have been added along with the related electronic ignition system diagnosis.

HARLEY-DAVIDSON

The diagnostics has been improved and enhanced.

HONDA

The new vehicles "ADV750H" and "CBR250RR" have been added along with the related complete diagnosis. New vehicles such as "Biz110", "Biz125", "CG160", "Pop110", "XRE190" have been added for the South American market, along with the related petrol injection system diagnosis.

The diagnostic coverage has been extended.

HUSABERG

The diagnostic coverage has been extended by adding the models "FE 250", "FE 350", "FE 501" and the special function "CO adjustment" for all the vehicles of the make. The diagnosis has been improved and the possibility to identify and select the correct vehicle automatically through the VIN SCAN function has been introduced.

HUSQVARNA

The diagnostic coverage has been extended up to 2017 included.

The new vehicles of series "FC", "FE", "FR", "FS", "FX" have been added along with the related petrol injection system diagnosis and the special function for the CO adjustment.

The new vehicle "701" has been added along with the

related complete diagnosis and Global Scan function.

The diagnosis has been improved and the possibility to identify and select the correct vehicle automatically through the VIN SCAN function has been introduced.

INDIAN

The new vehicle "Springfield" has been added along with the related complete diagnosis, and the diagnosis of the systems "speedometer", "multifunction display" and "audio amplification system" has been added for the vehicles "Chieftain" and "Roadmaster".

KAWASAKI

The diagnostic coverage has been extended up to 2017 included. Among the new vehicles, we would highlight the following: "J125", "J300" (Euro 4 version), KX450H, Versys-X (KLE300A), "Z650" and "Z900" with the related complete diagnosis.

KEEWAY**

The diagnostic coverage has been extended up to 2017 (included) by adding the new Euro 4 vehicles "CITYBLADE 125", "LOGIK 125", "RKS 125", "RKS SPORT 125", "RKV 125", "SUPERLIGHT 125", "TX 125" and "ZAHARA 125". All these vehicles, except for the "LOGIK 125", are equipped with OBD socket and therefore the 3151/AP05 cable is required to carry out the diagnosis.

KTM

The diagnostic coverage has been extended up to June 2017.

Among the many new features, the new vehicles "250 Duke" and "RC 250" have been added along with the related complete diagnosis, and the complete diagnosis, Global Scan, the service and maintenance (service reset) function have been added for the models "690 Duke" and "690 Duke R" produced starting from 2016.

The manual service and maintenance function is also available for all models "1190 RC8".

KYMCO

The diagnostic coverage has been extended up to 2017.

The new Euro 4 vehicles "Agility 125i R16", "Agility 150i R16", "Downtown 125i (SK25E)", "Downtown 350i (SK64G)", "G-Dink 300i (SH60)", "People Gti 300i ABS (BF60B)", "People One 125i (KM25A)", "Xciting 400i (SK80B)", "X-Town 125i (KS25A)" and "X-Town 300i (KS60A)" have been added along with the related complete diagnosis. All these vehicles are equipped with OBD socket and therefore the 3151/AP05 cable is required to carry out the diagnosis.

MASH**

The diagnostic coverage has been extended by adding the Euro 4 vehicles.

The new vehicles "Black Seven" and "Two Fifty" have been added along with the related complete diagnosis.

MOTO GUZZI

The secondary system diagnosis and the service and reset function has been added for the vehicles "Audace", "California 1400", "Eldorado" and "MGX-21".

MOTO MORINI*

The new vehicle "Corsaro 1200 ZZ" has been added along with the related complete diagnosis. For the diagnosis of this vehicle, the new 3151/AP53 cable is required – see chapter "New diagnostic cables".

MV AGUSTA*

The database has been simplified and the diagnostic coverage has been expanded up to 2017 included.

The complete diagnosis and the ECU update and service and maintenance (service reset) functions have been added for the Euro 4 models "Brutale 675", "Brutale 800 Dragster RC", "Brutale 800 Dragster RR", "Brutale 800 RR", "F3 675", "F3 675 RC", "F3 800", "F3 800 RC", "F4 RC", "Turismo Veloce 800 Base", "Turismo Veloce 800 Lusso" and "Turismo Veloce 800 Lusso RC".

SHINERAY

New make. The vehicles "XY400-2", "XY400-2A", "XY400-A" and "XY400GY" have been included with the related complete diagnosis.

SUZUKI

The diagnostic coverage has been extended and improved up to 2015 included. The manual service and maintenance (service reset) function has been added for the models "GSX 1300A B-King", "GSX-R 1000", "GW 250 Inazuma", "UH 125 Burgman", "UH 200 Burgman", "UX 125 Sixteen" and "UX 150 Sixteen".

SWM*

New make. The vehicles "Gran Milano 440", "Gran Turismo 440", "RS125R", "RS300R", "RS500R", "Silver Vase 440", "SM125R" and "SuperDual 650" have been added along with the related complete diagnosis and the ECU update function. For the injection system diagnosis and the related reprogramming function, the new 3151/AP51 cable is required – see chapter "New diagnostic cables".

SYM**

The diagnostic coverage has been extended up to 2017 (included) by adding the new Euro 4 models "Citycom 300 ABS", "CroX 125 (AEA3)", "Fiddle III 125 (XA12A3)", "Fiddle III 200 (XA20W)", "Joymax 300 ABS Start&Stop", "Joyride S 125 (LFA1)", "Joyride S 200 (LFA2)", "Maxsym 400 ABS (LX40A4)", "Symphony S 125 (XBA1)", "Symphony ST 125 (XBA3)" and "Symphony ST 200 (XB20W)". All the Euro 4 vehicles are equipped with OBD socket and therefore the 3151/AP05 cable is required to carry out the diagnosis.

TRIUMPH

The diagnostic coverage has been extended up to 2017 included.

Among the many new features, the new models of "Bonneville Bobber", "Bonneville T120", "Speed Triple S", "Street Cup", "Street Scrambler", "Street Triple", "Street Twin", "ThruXton", "Tiger 800", "Tiger Explorer" e "Tiger Sport" have been added along with the related complete diagnosis.

VICTORY

The diagnostic coverage has been extended up to 2017 included.

The new vehicles "Gunner", "Magnum" and "Octane"

have been added along with the related complete diagnosis.

YAMAHA

The diagnostic coverage has been extended up to 2017.

Among the many new features, the vehicle "MT-10" along with the related complete diagnosis and the complete coverage of the Euro 4 model "XP 530 T-Max" have been added.

PWC - PERSONAL WATERCRAFT category***

KAWASAKI MARINE

The new vehicle "SX-R (JS1500A)" has been added along with the related petrol injection system diagnosis.

The diagnostic coverage has been extended and improved.

QUAD category ***

CAN-AM (BRP)

The special function "CAN alignment" has been included for all the vehicles that are provided with it.

GEM

New make. The vehicles "E2", "E4", "E6" and "ELXD" have been added along with the related complete diagnosis.

POLARIS INDUSTRIES

The diagnostic coverage has been extended up to June 2017.

Among the many new features, the vehicles POLARIS RANGER "M 1400" and "Ranger EV LI-ION" have been added, as well as the POLARIS DEFENCE "MRZR 900 Military" and "WV-850", and the POLARIS Hawkeye.

KAWASAKI

The new models "Teryx 800 (KRF800E/F/G/H)" and "Teryx4 800 (KRT800E/F/G/H)" have been added along with the related petrol injection system diagnosis.

The diagnostic coverage has been extended and improved.

YAMAHA

The new vehicle "YXZ1000R" has been added along with the related petrol injection system diagnosis.

The diagnostics has been improved

SNOW MOBILE category ***

POLARIS

The diagnostic coverage has been extended up to June 2017. The vehicles "Axys 600/800", "CFI IQ Shift 136 600", "Indy 600/800", "RMK 600", "RMK Pro 600/800", "RMK Shift 144/155 600", "Rush 600", "Switchback 600", "Switchback Adventure 600/800", "Switchback Assault 600/800" and "Widetrak IQ 600" have been added along with the related complete diagnosis.

STELS

The new vehicle "V800 Viking" has been added along with the related petrol injection system diagnosis.

It is important to highlight that, other than the diagnosis, TEXA also offers additional technical information such as technical sheets, nominal values sheets, bulletins and wiring diagrams that are updated and extended at each SW update.

In particular, many nominal values sheets have been added for the makes APRILIA, HONDA, KAWASAKI, MBK, SUZUKI, YAMAHA as well as wiring diagrams for the makes APRILIA, BMW, DUCATI, HONDA, KTM, PIAGGIO and SYM.

Within the IDC5 software, you can check out all these new features in the DOCUMENTATION menu. There, you will find details of all the makes, models, systems and the related diagnostic functions introduced in the version.

* Official diagnosis chosen by the manufacturer (O.E.M.).

** Official diagnosis chosen by the manufacturer (O.E.M.) for the ITALIAN market.

*** For the AXONE S tool, this category is optional.

New diagnostic cables

Starting from the current version, these new cables are available in the BIKE price list:

3151/AP51: Complete cable for the diagnosis and the reprogramming of the SWM vehicles.

AP52/OBD: BENELLI OBD terminal cable for the diagnosis and reprogramming of the Athena control units (Euro 4 vehicles).

3151/AP53: Complete cable for the diagnosis of the MOTO MORINI Euro 4. vehicles.

For further details, information and connection methods, we recommend downloading the FREE APP "BIKE CABLES".

DIAGNOSTIC LIMITATIONS WARNING

Although TEXA strives to keep its diagnostic tools up to date, it ever more often finds itself having to deal with very complex modern vehicle electronics that requires tools with advanced technological features.

For this reason the diagnosis or some specific functions are not compatible on some vehicles. the tools that are subject to these limitations are the following:

- TRIBOX with a T-DIA module.
- NAVIGATOR TXB with a black or PGDS label (S/Ns that start with "DNX" or "W").
- NAVIGATOR TXM with a black label (S/Ns that start with "DNA").
- NAVIGATOR TXT with a black label (S/Ns that start with "DNT" or "W").

In order to make it easier on our customers to switch to a "new generation" TEXA diagnostic tool, that will guarantee top performance in carrying out your daily work within the workshop, TEXA has set up a special scrappage program that will allow you to purchase new diagnostic solutions at an extremely affordable price.

N.B.: The diagnosis on the makes BENELLI, BENELLI (DSK), BIMOTA and on the models APRILIA MXV, RXV, SXV and the Racing reprogramming function for the SUZUKI, CAGIVA and KAWASAKI vehicles are not available with the Navigator NANO S interface.

For more information contact your trusted TEXA dealer.

For further details on these functions and on their applicability to vehicles, visit:
